Skills

Languages :

- JavaScript
- TypeScript
- PHP
- C
- Python
- HTML5, CSS3
- SCSS

Libraries and Frameworks :

- ReactJs
- Vue Js
- NextJs
- Redux
- ExpressJs
- Redis
- Tailwindcss
- Bootstrap

Databases : ORM/ODM:

- MongoDB
- Mongoose

Tools :

- Linux
- NodeJs
- Postman
- Git and GitHub
- Figma

Soft Skill

- Time Management
- Observation
- Critical Thinking
- Decision making
- Communication
- Multi-tasking

About Me

I'm Salman Farshi, a dedicated web developer specializing in JavaScript, React.js, Node.js, MongoDB, PHP, and MySQL. I'm a quick, self-driven learner with a collaborative mindset, always ready to support team members and learn from them. Passionate about creating seamless user experiences, I excel at building dynamic web applications and continuously explore new technologies and innovative solutions to stay at the forefront of web development.

Projects Experience

Sotto Jachai – Anti Propaganda SaaS Project

Project live link : [here](#)

GitHub Repo link : [here](#)

Sotto-Jachai is a secure system designed to prevent propaganda and false information, particularly during mass movement. Utilizing the MERN stack (MongoDB, Express.js, React.js, Node.js) and advanced cryptography with 128-bit small hashing, the system ensures data integrity and security. Organizers can log in, submit content, and the data is hashed and verified by an admin team. Users can then verify the content using a key, ensuring that only truthful and validated information is shared.

Jobify – Full-stack jobs and companies management system

Project live link : [here](#)

GitHub Repo link : [here](#)

Key Responsibilities:

- Developed role-based authentication with JWT for admin and super-admin users.
- Managed companies and job listings with advanced filtering, searching, and sorting.
- Integrated AI-powered job description and outreach message generation.
- Optimized database queries with pagination and caching using Redis.
- Implemented secure file upload for company logos and job description PDFs.
- Ensured performance with lazy loading, code splitting, and secure headers.

Social Media Full Stack Project.

Project live link : [here](#)

GitHub Repo link : [here](#)

Key responsibilities

- Implement authentication using JWT and manage sessions.
- Create image posts, comment, and like
- Allow users to follow others.
- Provide search functionality to find people and view profiles.
- Allow users to update their profile picture.

Professional Experience

Nurlt | Frontend Developer (Intern)
February, 2024 – September, 2024

Solutya Pvt Ltd | MERN Stack Developer (Intern)
September, 2024 – Present

Language

- English: Reading- Intermediate, Writing-Intermediate, Listening-Intermediate, Speaking: Intermediate.
- German: Beginner ; Level : A1.1
- Bangla: Reading- Native, Writing- Advance, Listening- Native, Speaking- Native.

Personal Information

Name : MD Salman Farshi
Date of Birth : 05 August , 2005
Marital Status : Unmarried
NID : 1972680845
Nationality : Bangladeshi
